Application for Senior Accountant

Dear Hiring Manager,

I am applying for the Senior Accountant role in your corporate finance team. I am a qualified Chartered Accountant with four years of experience across month-end close, GST compliance and statutory audit.

Your posting asks for someone who can tighten the close. In my current role I took our month-end from nine working days to five by moving bank and intercompany reconciliations into a daily routine in Tally and Excel. I also prepared the schedules for our last two statutory audits, both closed with no qualifications and no repeat observations.

What interests me about Vardhan is the move to SAP S/4HANA next year. I worked on the chart-of-accounts mapping for our own migration, and I would like to bring that experience to a larger rollout.

Thank you for your time. I would welcome the opportunity to discuss the role.

Sincerely,

Arjun Mehta
