

Ananya Iyer

Data Analyst

Bengaluru, India · ananya.iyer@example.com · +91 98450 55127

PROFILE

Data analyst with 5 years turning retail and supply chain data into dashboards people actually use. Builds the SQL models behind them, automates the reporting that used to take two days a week, and works directly with category and operations managers on pricing and stock decisions.

WORK EXPERIENCE

07.2022 – Present **Data Analyst**

Suryodaya Retail

- Built the Power BI dashboard suite used daily by 180 store managers, replacing a weekly emailed spreadsheet; adoption reached 92% of stores within two months.
- Wrote the SQL models behind stock cover and sell-through KPIs, cutting the reporting pack from 14 hours of manual work a week to a 20-minute refresh.
- Analysed pricing on 2,400 SKUs with Python and recommended changes that lifted gross margin 1.8 points in the home category.
- Partnered with the supply chain team to flag slow-moving stock earlier, reducing end-of-season markdown by ₹1.1 crore.

06.2020 – 06.2022 **MIS Executive**

Bharat Logistics Services

- Extracted and reconciled shipment data from SAP for 40+ client accounts, resolving mismatches before monthly billing.
- Automated 11 recurring Excel reports with Power Query, saving roughly 30 hours a month across the team.
